

FUNWEEK

This was an exhilarating week. It started off with the children showcasing their artistic skills.

It was an absolute delight to see the children engrossed in their imagination and creating wonders with the colours. Then came the most awaited moment; their teachers put up a show just for them! Needless to say that the children were delighted to see their teachers dancing & singing especially for them. The children off course could not stop applauding their adorable Teachers.

To keep up the excitement there was the magic show which kept the children spellbound. The dress code was different everyday which made the week more colourful.

Our heartfelt thanks to all the parents for putting in efforts in dressing up their children. Worthy of mention was the excellent dancing skills shown by the children on the day of the dance competition.

On the final day of the exciting week, the boys had their face painted while the girls had their hands adorned with mehendi.

The week ended on a sweet note when the children went back home with goodies in their hands and a Big Smile on their faces.

**Thank you all for making
this week a big success.**
