

COOK YOUR WAY TO GOOD HEALTH

24TH October 2009 was a unique day at DPS – East. The parents along with their children of KG section participated whole heartedly in the competition titled “**Cooking With out Fire**”. It was interesting to see the fathers donned the chef’s cap and apron, while the mothers helped out with the chopping and topping. The little ones of course whipped in their bit. The wide array of delicious and delectable dishes on display had our judges stumped. It was with a great deal of deliberation, that they finally announced the winning entries.
